

Accent II™

tip-up, high back / semi-high back

NEW

Winga-based, fold-up seat to match Rescroft's popular semi-high back Defender and high back Nevis.

Accent II was originally developed and marketed as Defender Access and met the 1998 regulatory requirement for rear-facing seating to at least meet M3 specifications. A 2005 styling redesign and rebranding to Defender Accent brought the seat's appearance into line with the rest of Defender range.

This latest Accent II development introduces frame strengthening and brings the seat up to the toughest M1 standard.

Notes

1 - Caution: It is not possible to test every permutation of seat width, accessory combination, leg height, position and type, or seat belt requirement. For this reason, it must be emphasised that compliance cannot be assumed where there is any deviation from the standard supply or assembly method. Additionally, the advantages of this product may be lost if insufficient consideration is given to the method of installation of the seat in the vehicle.

2 - FULL compliance to seat belt anchorage regulations can only be achieved through vehicle testing.

3 - Product improvement may affect specifications
